

Q-Ribbon: March 2016

Deadlines to Remember

Prior to March 1, AQHA should receive your completed July show application(s) and any corrections to your June show(s).

Level 1 Applications

Please check [Level 1 applications](#) as you submit to AQHA to ensure the exhibitor has completed the entire form. We have been receiving incomplete applications, which may cause delays in the exhibitor's eligibility being recorded accurately.

Exhibitor and Horse Lookup Against AQHA Database

Did you know you can look up exhibitor and horse information using the online results upload system? Here's the link to the [Show Managers Resource page](#), which will give you details regarding the upload system and other options that are available to you as show management.

Show Results Upload Guide

Show management has the option of using the AQHA show upload to process its show results. Please take a moment to review the [Show Results Upload Guide](#); it'll make using the upload a bit smoother. A plus to using the upload is that your exhibitors are able to see your unofficial results as soon as you mark your show complete!

Show management can also look up exhibitor names and memberships, as well as horse registration numbers and names – check it out!

Score Sheets

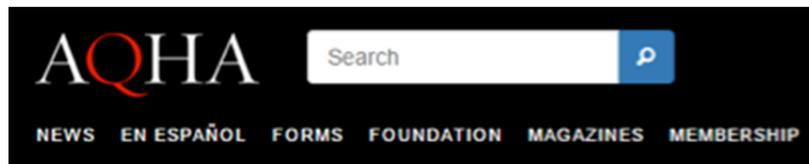

Reminder: Judges are required to use score sheets in all applicable classes (scored class), and they need to be using the *current* AQHA official score sheet found on the [Forms section of the AQHA website](#). Secondly, show management is required to send these to AQHA along with show results.

Cancelled Shows

If you run into issues with weather, disease, any reason that you are considering cancellation of a show, you must notify AQHA first. Let's talk about the issue and make the best decision for the show together. Simply cancelling the show and then notifying AQHA could affect future show approvals.

AQHA's Online Show Schedule is Expanded!

Check this out: Within the members-only area of AQHA.com, the [show schedule](#) has been expanded to list 12 months, not just three as on the previous website. How does that help your show? More advertising time! Get your show approval applications in earlier and get more time on the schedule.

Biosecurity Best Practices

As you likely have heard, there are already multiple equine herpes virus type-1 outbreaks across the country this year. It's imperative to encourage proper biosecurity measures at your events. This ["10 Ways to Protect Your Horse From Infectious Disease"](#) poster is a handy resource that we encourage every show management team to read.

Equine Disease Outbreaks

AQHA encourages everyone to refer to the Equine Disease Communication Center when it comes to news regarding outbreaks in your area. Visit www.equinediseasecc.org.

Versatility Ranch Horse Competition and/or Ranch Horse Classes Within a Show

Please see the [2016 Judge's Update](#), as it includes valuable information from a show management's standpoint.
